

## CONTRIBUTIONS TO LEED® 2009 FOR COMMERCIAL INTERIORS

### Energy & Atmosphere

Credit 1.1	<b>Optimize Energy Performance - Lighting Power</b> ONE LP glass walls can be utilized to maximize daylighting and reduce energy consumption and lighting loads.	1-5 Points
------------	---	------------

### Materials & Resources

Credit 2	<b>Construction Waste Management</b> ONE LP glass walls produce considerably less waste than traditional drywall construction, reducing the total volume of debris to be diverted. ONE LP packaging materials can be easily recycled in most markets.	1-2 Points
Credit 3.1	<b>Materials Reuse</b> ONE LP's modular construction easily lends itself to reuse, contributing to this point on future projects. Panels can be relocated within the same space or a different building, providing ceiling heights are compatible.	1-2 Points
Credit 4	<b>Recycled Content</b> ONE LP glass walls may contribute to this credit as a basic panel contains 0% post-consumer and 1% pre-consumer recycled content.	1-2 Points
Credit 5	<b>Regional Materials</b> ONE LP is manufactured in West Chester, PA (19380) and most raw materials are extracted from PA to GA and may contribute to this credit depending on the project location. Glass can usually be sourced locally.	0-2 Points
Credit 7	<b>Certified Wood</b> ONE LP can be specified with FSC-certified wood doors. Transwall is FSC Chain of Custody certified.	1 Point

### Indoor Environmental Quality

Credit 4.4	<b>Low-Emitting Materials - Composite Wood and Agrifiber Products</b> ONE LP can be specified with wood doors which are available as no added urea formaldehyde.	1 Point
Credit 8.1	<b>Daylight and Views - Daylight</b> ONE LP glass walls can be utilized to maximize daylighting and views.	1-2 Points
Credit 8.2	<b>Daylight and Views - Views for Seated Spaces</b> ONE LP glass walls can be utilized to maximize daylighting and views.	1 Point

## CONTRIBUTIONS TO LEED® 2009 FOR NEW CONSTRUCTION

### Energy & Atmosphere

Credit 1	<b>Optimize Energy Performance</b> ONE LP glass walls can be utilized to maximize daylighting and reduce energy consumption and lighting loads.	1-19 Points

## CONTRIBUTIONS TO LEED® 2009 FOR EXISTING BUILDINGS

### Energy & Atmosphere

Credit 1	<b>Optimize Energy Performance</b> ONE LP glass walls can be utilized to maximize daylighting and reduce energy consumption and lighting loads.	1-18 Points
----------	--	-------------

### Materials & Resources

Credit 2.2	<b>Sustainable Purchasing - Furniture</b> ONE LP's modular construction easily lends itself to reuse. Damaged parts can be replaced on-site. Panels can be relocated within the same space or a different building, providing ceiling heights are compatible. FSC-certified wood components can be specified. ONE LP is manufactured in West Chester, PA (19380) and most raw materials are extracted from PA to NC. Glass can usually be sourced locally.	1 Point
Credit 8	<b>Solid Waste Management - Durable Goods</b> ONE LP's modular construction easily lends itself to reuse. Damaged parts can be replaced on-site therefore reducing waste and toxins.	1 Point

### Indoor Environmental Quality

Credit 2.4	<b>Daylight and Views</b> ONE LP glass walls can be utilized to maximize daylighting and views.	1 Point
