

Energy & Atmosphere

- Credit 1.1** **Optimize Energy Performance - Lighting Power** **1-5 Points**
- Corporate Wall moveable walls can be designed with glazing strategies that maximize daylighting and reduce energy consumption and lighting loads.

Materials & Resources

- Credit 2** **Construction Waste Management** **1-2 Points**
- Corporate Wall moveable walls produce considerably less waste than traditional drywall construction, reducing the total volume of debris to be diverted. Corporate Wall packaging materials can be easily recycled in most markets.
- Credit 3.1** **Materials Reuse** **1-2 Points**
- Corporate Wall's modular construction easily lends itself to reuse, contributing to this point on future projects. Panels can be relocated within the same space or a different building, providing ceiling heights are compatible.
- Credit 4** **Recycled Content** **1-2 Points**
- Corporate Wall moveable walls may contribute to this credit as a basic panel contains 1% post-consumer and 21% pre-consumer recycled content.
- Credit 5** **Regional Materials** **0-2 Points**
- Corporate Wall is manufactured in West Chester, PA (19380) and most raw materials are extracted from PA to GA and may contribute to this credit depending on the project location.
- Credit 7** **Certified Wood** **1 Point**
- Corporate Wall moveable walls can be specified with several different wood components, all of which are available as FSC-certified. Transwall is FSC Chain of Custody certified.

Indoor Environmental Quality

- Credit 3.1** **Construction Indoor Air Quality Management Plan - During Construction** **1 Point**
- Using a pre-manufactured solution such as Corporate Wall moveable walls reduces the debris, dust, gases and other emissions that would result from traditional drywall construction.
- Credit 3.2** **Construction Indoor Air Quality Management Plan - Before Occupancy** **1 Point**
- Using a pre-manufactured solution such as Corporate Wall moveable walls reduces the debris, dust, gases and other emissions that would result from traditional drywall construction.
- Credit 4.4** **Low-Emitting Materials - Composite Wood and Agrifiber Products** **1 Point**
- Corporate Wall moveable walls can be specified with several different wood components, all of which are available as no added urea formaldehyde.
- Credit 8.1** **Daylight and Views - Daylight** **1-2 Points**
- Corporate Wall moveable walls can be designed with glazing strategies that maximize daylighting and views.
- Credit 8.2** **Daylight and Views - Views for Seated Spaces** **1 Point**
- Corporate Wall moveable walls can be designed with glazing strategies that maximize daylighting and views.
