LEED v4 + v4.1 CONTRIBUTIONS

- » MR Credit: Interiors Life-Cycle Impact Reduction
 - Corporate Wall panels are movable and demountable.
- » MR Credit: Building Product Disclosure and Optimization – Sourcing of Raw Materials
 - FSC® Certified wood products, including ultra-low emitting formaldehyde + no added formaldehyde, available upon request.
 - Corporate Wall contains post-consumer and pre-consumer recycled content - reference values on previous page.
- » MR Credit: Construction and Demolition Waste Management
 - Corporate Wall produces considerably less waste than traditional drywall construction, contributing to onsite waste minimization.
 - Corporate Wall packaging can be easily recycled in most markets.
- » EQ Credit: Low-Emitting Materials
 - Corporate Wall is composed primarily of inherently non-emitting materials.
 - Corporate Wall does not require the use of interior adhesives, paints or sealants to be applied on site.
 - Corporate Wall is SCS Indoor Advantage™ Gold certified.
- » EQ Credit: Daylight
 - Corporate Wall glass panels can be specified to maximize daylighting.
- » EQ Credit: Quality Views
 - Corporate Wall glass panels can be specified to maximize quality views.

Disclaimer: Corporate Wall material content and recycled materials calculations are based on typical configurations and standard product offerings. Recycled materials calculations in this document are based on data provided by suppliers. Transwall makes conservative assumptions when compiling information to provide the most accurate calculations possible. Product recyclability is dependent on local program availability. This document is subject to change without notice.
