

FLEX

Transwall

INFINITE FINISH POSSIBILITIES

FLEXX is designed around flexibility—not fixed finish packages. From color and texture to material and surface treatment, FLEXX opens the door to virtually unlimited finish possibilities tailored to your project and vision. **Any finish. Any texture. Any vision.**

POWDER COATING

Color Without Compromise

Powder coated steel tiles deliver a clean, durable appearance with virtually unlimited color flexibility.

- 5 standard colors
- Custom color matching available
- Infinite color potential
- Clean architectural appearance

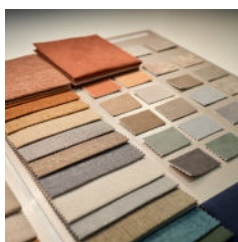

WHITEBOARD TILES

Collaboration Built In

Integrate writable surfaces directly into the wall system to support brainstorming, communication, and shared work.

- Writable surface
- Easy maintenance
- Supports collaboration and note taking

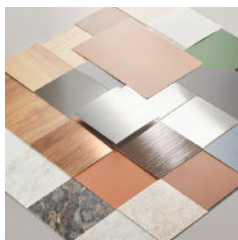

FABRICS

Softness & Texture

Commercial fabrics introduce warmth, texture, and visual softness to FLEXX environments.

- Broad fabric selection
- Soft material expression
- Texture and acoustic character

ARCHITECTURAL FILMS

Performance Meets Material Expression

Applied over steel panels, architectural films provide durability alongside an expansive design palette. From solid colors and wood visuals to oxidized metallics and textured finishes, films create visually rich surfaces while maintaining magnetic functionality.

- Solid colors
- Wood visuals
- Metallic and oxidized finishes
- Durable surface protection
- Magnetic compatibility

WOOD / MDF TILE

Natural and engineered finishes expand FLEXX beyond metal surfaces, offering warmth, richness, and nearly limitless aesthetic flexibility.

WOOD VENEERS

Natural Character. Premium Warmth.

Real wood veneer tiles introduce organic variation and refined materiality, bringing warmth and sophistication to interior environments.

- Real wood veneer
- Natural variation
- Premium aesthetic
- Authentic material character

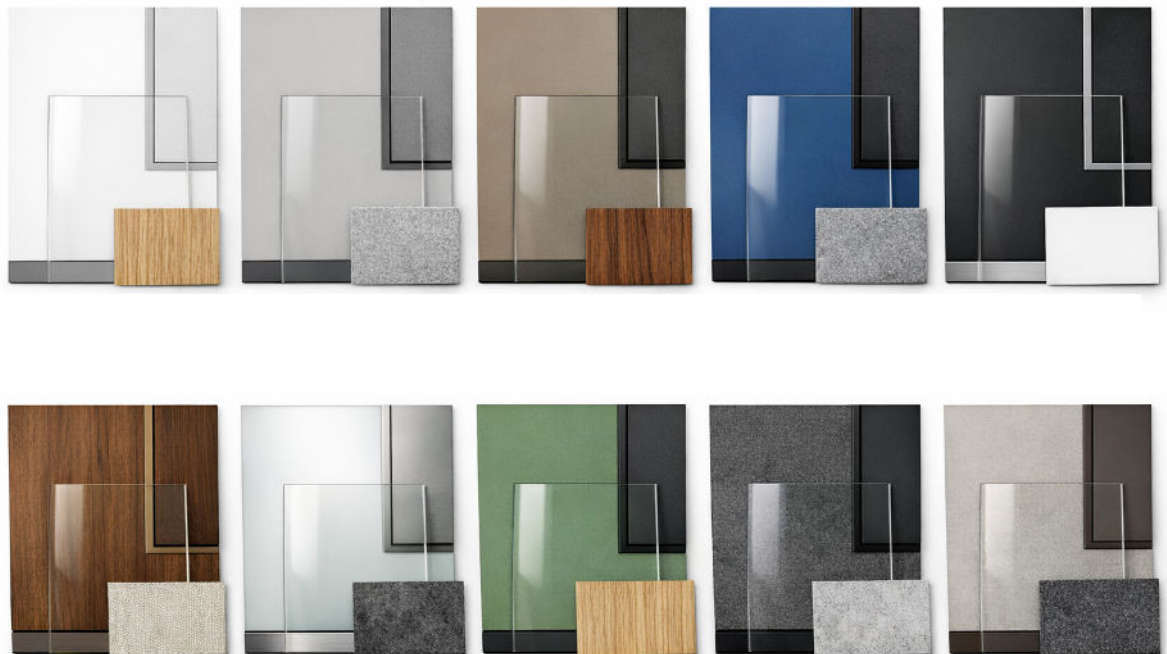

LAMINATES

Unlimited Finish Possibilities

Laminate surfaces combine exceptional durability with one of the broadest finish palettes available. From solids and patterns to wood looks and specialty textures, laminates deliver lasting performance with nearly endless design flexibility.

- Extensive finish options
- Color and pattern variety
- Exceptional wear resistance
- Durable commercial performance

Transwall

THOUSANDS OF FINISH POSSIBILITIES. ONE ADAPTABLE SYSTEM.

FLEXX is not defined by preset finish packages or limited selections. Every project presents an opportunity to create surfaces aligned with brand, function, and design intent.

Whether powder coat, fabric, architectural film, wood veneer, laminate, or custom material expression, FLEXX provides the freedom to bring virtually any finish vision to life.
